

I finished *There is an Answer*. It was an illuminating experience. I am still thinking of how I can review this book, except that I might find myself overrhapsodising about Candace Frazee's inner (and obviously outer) beauty. Candace truly deserves overwhelmingly positive reviews.

I indeed finished the book – in quick time too, not because it was an undemanding thriller, but because it was so engaging. The experience is like reading the features of a lover you just met while she sleeps and dreams.

In spite of the derogation the word seems to be suffering today, I consider myself a 'freethinker,' so reading *There is an Answer* from cover to cover was not a problem. I would read anything that promises fresh insights; from the first page that was what her book did for me.

I wonder if Candace Frazee knows how lucid and reader-friendly her style is? How unpretentious and pithy.

Her book was the first I read that the author answers questions sent to her, or maybe it is the especial warmth of her method that makes me think it's the first. And I daresay, Candace's answers are illuminating and pretty savvy. *There is an Answer*, itself, offers a better explanation of who and what Swedenborg was than any that I've read. And I was truly bowled over by the author's personality, most of all.

I am so glad Candace Frazee wrote a book. I am delighted with it. She is one of the best evangelists the New Church has. You can quote me on that.

Dear Candace,
I received your beautiful book in the mail. Thank you for the wonderful and powerful way you are influencing people's lives through the thoughts and inspirations of Swedenborg and through spreading the bunny and angel energy. It is wonderful to know that you are there and making a difference in our world.

I have *There is an Answer* near my bed to read before lights out each night. It has a good balance between the lighter and more serious questions and so much bibliographical information about Swedenborg — Candace Frazee has produced a fine volume.

There is an Answer really is a mine of information about Swedenborg, his teachings and people who have read him and been influenced by him.

Ed Cranch ran the Bryn Athyn Cathedral Bookroom for many years and in more recent years assisted us as a volunteer. He was much loved and respected. He passed away last weekend [8 November 2008] at the age of 91. The last book he reviewed for us was *There is an Answer: Living in the Post-Apocalyptic World* by Candace Frazee. He liked it very much, and was delighted at the variety of unusual details regarding Swedenborg, the Writings, and related subjects.

Dear Candace,
I'm really enjoying reading through *There Is An Answer*. It's a great combination of information from Swedenborg's works, facts about Swedenborg, and other related topics. A special thanks for your excellent responses to questions about abortion. When it comes to human decisions, I strongly believe that the Lord is much more concerned with peoples' motivations and circumstances than with the action itself. A seemingly identical action can be totally different with two different people when it comes to their spirits.

Dear Candace,
I got your excellent book. God bless you richly for your work! Don't give up! Sadly that your book is in English only because it has so many serious questions and so many real answers. I read it avidly. Must say that your biography is very interesting for me. You must continue to write your books....and let our Lord bless you for such the noble work! I can see how many scrupulous, careful and thorough work did you to get gold wise grains to make some reply... It is like to mine a gold = to obtain gold grains of the spiritual wisdom.

Dear Candace,
Your awesome book arrived, today! I have read the preface, checked out every photo and had great fun perusing its many pages. I don't believe I could ever accomplish all that you do! You're amazing! I can't wait to share it with others!

Dear Candace,
Your book is an interesting mix of bunnies, angels and Swedenborg! I love all of the photos and drawings that keep each page interesting. I am wondering if it will be the kind of book one reads cover to cover or snippets at a time since the letters were written for shorter reads. One can certainly open the book up anywhere and find an interesting, thoughtful and well-researched article.
