

paperback, 377 pages

Candace Frazee is not only famous for owning The Bunny Museum with her husband, Steve Lubanski, (Guinness World Record holders of the most bunny items in the world) but, she also directs the annual Angel Festival and writes a monthly newsletter about Emanuel Swedenborg. You know, the Swedish, 18th century scientist that spoke to angels!

Never heard of Swedenborg (1688-1772)? You're not alone. And that's where Candace comes in. For 20 years she has been helping others to understand Swedenborg. People from as far away as Australia, Japan, and Kenya write Candace with difficult questions about life and death. In a loving way, Candace answers from a Swedenborgian perspective that both helps and heals.

Now you can read some of these letters to "Dear Candace" from 1988-2008. Her answers are surprisingly simply. Though Swedenborg "the apocalyptic historiographer" is complex, Candace is great at sorting out any confusion.

"Swedenborg enables us to understand why we were created, why we are alive and what happens to us after our bodies die. Swedenborg enables us to have the best possible understanding of God's message as it exists in those Bible Books which constitute God's Word."

Rev. Dr. Martin Luther King, Jr. (1929-1968)

There is an Answer: Living in the Post-Apocalyptic World by Candace Frazee
